

## UDFCD Volume III Vegetative BMPs Core Group Meeting

2480 West 26th Avenue, Suite 156-B, Denver, CO 80211

Phone: 303-455-6277

**Lunch Provided**

DATE: March 30, 2009

TIME: 12-2 pm

SUBJECT: Vegetative BMPs Meeting Agenda

---

The Vegetative BMPs committee has been formed from the Technical Advisory Committee to discuss the changes and updated content in this section. BMPs in this section include: Grass Buffer, Grass Swale, Porous Landscape Detention, Sand Filter and Green Roof. Updates include:

- Organization of information: Each BMP section contains pertinent information as well as the design details, work sheet and maintenance information.
- More information on PLDs and design guidance such as additional inlets to reduce sediment transport into the BMP, how to combine with other BMPs such as permeable pavements.
- [Structural soil](#) information and applications have been added to the PLD section.
- Addition of a Green Roof section. This draft section is posted [here](#):

**\*Please be familiar with the pertinent BMPs in Volume 3 and I will send out the draft text before the meeting for your review.**

### Agenda:

- Introductions – Name/organization
- Goals
- Discuss Core group member comments on this section
- Design refinements
- Installation guidelines/requirements
