# THE DELUGE.

Worst Flood in History in the Vicinity of Boulder.

Thousands Were Ruined by the Terrible Rush of Water.

Hundreds of Houses Swept Away and Carried Before The Angry Stream.

Entirety Flat Invaded by the Flood and Families Are Driven Out.

Night Scores of People Were Dependent on the More Fortunate Ones.

Iron and Copper Rocks Were Both Washed Away by the Seething Floods.

Thriving Town of Lyons Reported as Being Almost Ruined by the Raging Waters.

A Million Dollars Damage—Fears Entertained for the Safety of Miners in the Hills.

By The News-  
**Boulder, Colo., June 1.**—Thursday morning Boulder creek, a stream thirty feet wide, was a raging river 500 yards wide as it passed through Boulder and over railroads, streets and through a carrying destruction in its path. The bridge was swept away and some railway bridges went. In Boulder everything was swept away. The road track for twelve miles to Sunset completely wrecked. Hundreds of families in Poverty Flats are rendered homeless. Relief parties were all day saving men and children by horses and ropes. Hundreds of houses were swept away and all the rescued have been taken to camps of residents on the high land on south side, which is entirely cut off. Houses were swept down the stream and lots were washed away and garbages destroyed. The depot is in the middle of a lake. But now the water is

Rocks weighing ten tons struck and crushed the house into a shapeless mass. Five hundred yards of mountain had become a huge gorge, the land roaring and rolling into the creek.

### An Awful Sight.

Mr. Calvert, Mr. Callahan and others hurried to the scene and there saw a sight that beggars description. In the heap of crushed house, outhouses, wagons and stock they found Mrs. Merriman, waist deep in dirt, clinging to one baby. Beside them lay a dog crushed out of all semblance to a dog, while Mr. Merriman with another baby lay in debris uninjured. Not a scratch was found upon any of their persons, while ruin lay spread around them in all directions.

Burt Langridge is down from Ward and says that not a mine in that camp is working, save double shifts on the pumps. Every mine is filled to the brim and it must be many days before any in that section can work. He says the camps of Sunset and Copper Rock are absolutely wrecked, not a building being left, and the roads and railroad track piled into wreckage.

### Will Have to Vote Bonds.

Hon. Fred Kohler, chairman of the board of commissioners, came to town this morning across the Sternberg bridge at Twenty-first street. He says that bonds must be voted to put roads in passable condition. The iron bridges at Ross, Howard's and Jim King's places have been saved, but the strong bridge west of D. K. Sternberg's place has gone.

Mr. A. Durward, who is over from Valmont, says the bridges between Boulder and that place on the north road are saved. He says the loss to the farmers has been tremendous. The stream is a mile wide this side of Valmont. Mr. Durward was baling his hay and is a heavy loser.

### Losses on Left Hand.

The following from Left Hand at Glendale and vicinity may be of interest:

The loss of property here, as far as could be learned, is as follows:

Charles Reardon, house and stable; David O'Neill, placer and house; S. Verlarey, house; Mrs. Urle, stables and outbuildings; General Niles, superintendent of the Gold Nugget, house and stables; the Nugget pump is held by cables; Mrs. Hemingway, house, D. S. Coffman and S. V. Coffman lost their houses; William Hertha lost the dump and track from his tunnel. Several houses and outbuildings came down the creek from above.

Relief for the south side of the city was made this afternoon by a hanging bridge or ferry having a box into which provisions and two persons at a time would be pulled over by persons on either side. J. J. Willis, who had a woodyard near McAllister Lumber company's yard lost his saws, machinery, wood, etc., which were valued at \$600.

At Berthoud, Colo., great damage was done by flooding from the big ditch. Several families are homeless there.

Venturesome persons crossed over the high bridge up near Boyd to-day, although it was swinging in the air for about 250 feet. Several were arrested for doing so.

### A Perfect Stream.

OCURED ONLY  
NEWS.

Some of the residents on the high land south side, which is entirely cut off by the stream. The depot is in the heart of a lake. But now the water is falling. The danger is now past, but the streets are filled with the wreckage of the

man, consisting of Holtz's store and other houses, is gone. The people of Sugar Loaf are homeless and the mill houses are gone. Rockville and Glendale, some of the houses are gone, but the Prussian was

houses on Left Hand have been swept away.

**Jimtown Under Water.**  
The famous mining camp, is a complete wreck. The stream took the street of the town and every house on the north side of it was swept away. Glendale, a beautiful little watering place, was wrecked.

Older creek at Valmont is a mile wide. The houses of the vicinity are submerged.

Superintendent McCormack of the Gulf road is here and will crib the bridge across the creek. Several hundred feet of bridges and embankments are washed out. At Marshall men have been sent out to repair the same.

**Heavy Losses.**  
Mr. Cowie estimates the loss in the city at \$250,000. This is conservative. Railroad loss must be about \$150,000, and bridges, \$100,000, toll roads, \$100,000, real estate and farms, \$100,000. Mills and houses in the mountains, \$50,000.

Losers of houses and homes in the city are Mrs. C. S. Chase, Norman S. J. Thorne, Thomas Manford, J. Gallencrodt, T. C. Johnson, Henry Wilson, Mrs. Amick, Mr. Gruley, Edward, John S. Mulford. Four houses were destroyed by the Union Pacific Denver and North Platte railroad and Mr. Wilson. These are the heavy losses. The Seventh Day Baptist church was destroyed and the property of P. J. Hicker and E. J. Perrin on the south side, is in imminent danger. Fifteen street on the north side, from Twelfth street on the south side, every house in the valley has been swept away or flooded and ruined.

Losers cannot be obtained of losers in the city flats. Each family had its cows and chickens; their main property. They are all gone. Their furniture and carpets remain in the houses, under an ocean, happily receding in an hour.

Mr. Weisenborn had a 200-foot lot on the south side. It has gone to enrich the farms below.

Mr. Wilson, owned 140 feet frontage on the north street. All but twenty feet have been washed away and his pretty garden with it. His property was moved. Barns by the dozen were swept down the stream.

**Three Dead Bodies.**  
It was reported by a lady just from the city that three bodies were seen floating down the stream at that place. The miners are supposed to have been

Venturesome persons crossed over the high bridge up near Boyd to-day, although it was swinging in the air for about 250 feet. Several were arrested for doing so.

**A Perfect Stream.**  
The heaviest part of the stream of Boulder creek is now running down through the heart of the town along the Beasley ditch.

Greater damage is being done to-day than yesterday. Water Commissioner Vandercook examined the water pipes of the Boulder water supply and reports them to be in bad shape. He says eleven lengths of 16-inch pipe are entirely gone and about a dozen are unjointed. It will take a month to repair the waterworks.

**Damage at Lyons.**  
Sheriff Dyer of Boulder county returned to-day from Lyons, where he went before the flood. He reports the condition there and in St. Vrain valley as bad as in Boulder valley. The lower part of Lyons is entirely washed away. The toll road between Lyons and Jamestown is wiped out. The heaviest loser in Lyons is Mr. Hubbell, a liveryman who has lost a team, head of horses and a valuable barn. Standing on a mountain overlooking the valley of St. Vrain the valley presented the appearance of a region three miles in width under water. Sheriff Dyer returned to Boulder by way of Red Hill. That little stream is swollen to a half mile in width.

At the Swede schoolhouse the farms are under water and covered many feet with debris and sand.

At Boulder the water is rising, owing probably to rains in the mountains this afternoon. The city has employed a large force this afternoon to blow up the debris with dynamite, hoping to change the channel of the stream to the old channel of the creek.

**Aid for Sufferers.**  
Mrs. Sobrino and Paul Stoeving, who came to give the commencement concert here Wednesday night, started for Denver this afternoon in a wagon, but were obliged to return. They very generously tendered a concert here to-night, at which all the proceeds were given to sufferers from the flood. A meeting called by Mayor Cowie, was held at the district court room, for the purpose of taking some action for the benefit of the sufferers. It was largely attended and active measures for relief were inaugurated.

**GREAT DAMAGE.**  
**The Loss Around Morrison Will Be Seventy Thousand Dollars.**

Special to The News.  
MORRISON, Colo., June 1.—The damage to Morrison and vicinity by the flood has been enormous, and it is being added to every hour. The rain has ceased but the creek is still very high, the strong current eating into the roads and railroad embankment. The wires were down last night and no communication with the outside world could be had. During Wednesday night the families of H. Dale, Mose Miller and Frank Adams had to abandon their homes as they were entirely surrounded by the rapidly rising water. There is only one wagon bridge on Bear creek for a distance of twenty miles, and it is near the creamery. The wagon road between the town and the creamery is almost entirely washed out as is also a large portion of the quarry track about it. The foot bridge to the

# THE DELUGE.

(Continued from First Page.)

some years ago, crumbled and fell Wednesday night and the foundation of the whole structure was in danger to-day.

About 500 feet of the railroad track in Sunnyside was washed out. Three hundred feet of the flume which supplied the reservoir was destroyed. The tender of engine No. 107, stuck at the mouth of Virginia canon, was dug out and was put on the track this morning. Snow is reported on the mountains, from eighteen inches to two feet deep, and when this melts and comes down the flood is liable to be worse than ever. Eight passengers who came up on Tuesday morning's train started afoot for Denver this morning. There were three ladies in the party. No trains can possibly be run for three or four days.

## SWEPT BY WATER.

**The Arkansas Swelled to Several Times Its Natural Size.**

**Special to The News.**  
FLORENCE, Colo., June 1.—One of the most disastrous floods that has ever visited the Arkansas valley has been witnessed the past three days from a point five miles east of this city extending to and east of Colorado Springs. Destruction begins at Hardscrabble creek. Here the river by the unusual flood which came down that stream with the freshet, which came down Coal creek and Chandler creek, swelled the turbulent Arkansas river to many times its usual size, the water being from twelve to fifteen feet above low water stage. Those who have been east along the stream for twelve miles, report a vast amount of destruction to railroads and farm property, the railway companies, Denver and Rio Grande and Santa Fe, suffer many thousands of dollars in the loss of bridges and track washed away, two long pile and trestle bridges over Hardscrabble were washed out on Wednesday evening.

The Rio Grande worked all day yesterday at replacing its bridge, when another was nearly as large as the first one destroyed all its work which was done over again to-day, and to-night a new bridge is about ready to pass over, but this is the smallest part of the railroad troubles.

More than half a mile of track is gone at various places between this place and Pueblo, where the river has cut into the land and undermined the railroad, where it was built high above the water. The riprapping was washed away by the swift current, and when that was gone, the soft earth soon melted and went away with the flood. In many places the road bed has been cut out and the main channel of the river is occupying it. Owing to the continued high stage of water the only thing that the railroad company can do is to build a new track around most of these places and take up the old track when the stream abates the first of July. The Rio Grande and Santa Fe will sustain loss of at least \$250,000, and the ranchmen along the river \$10,000 to \$15,000. All irrigating ditches are greatly damaged in many places, being entirely obliterated. Fields of corn and alfalfa and garden truck have been laid waste, together with the many changes which

ities have taken the matter in hand and no one in need will suffer.

The young man who was drowned near the Union Pacific depot has been identified as Joseph Scorafo, an unmarried smelter laborer. The river has fallen to the height usual at this period of the year and trenches are carrying off the water from the flooded district.

## SLOWLY RISING.

**The Arkansas River Coming Up at Lamar.**

**Special to The News.**  
LAMAR, Colo., June 1.—Throughout the day the Arkansas river has been slowly rising and to-night the bottoms south of the river and the main road from the bridge to Lamar are under several feet of water. The great pressure of water and drift on the bridge weakened the structure and about fifty feet of the north end went out at noon. The rest of the bridge will probably stand, as the river is wide at this point and the banks are lower, so that the water will not reach a higher stage. The man in charge at the headgate of the Amity canal reports that he saw the body of a man going down with the flood, but as the workmen at the bridge saw nothing of it, he may have been mistaken. The headgates of the Manvell and Hyde ditches have been washed out and the ditches damaged considerably. Trains are tied up here on account of the Santa Fe tracks, sixteen miles west of here which run near the river, being submerged. About 3,000 feet of track is under water and washing out.

## The Booming Platte.

**Special to The News.**  
BRIGHTON, Colo., June 1.—The river at this point has been gradually rising all day and is now one to six feet deep all over the lower lands. No bridges have been entirely taken, but all are more or less damaged, and communication with the west side is impossible. Another big flood is reported on the way down. Thousands of acres of crops are ruined. It is probable that the waters will cut out new channels in many places. The high water has stopped all control of irrigating ditches taken from the Platte, and they, too, are bursting out and flooding the higher lands.

## To Repair the Damage.

**Special to The News.**  
SALIDA, Colo., June 1.—The Denver and Rio Grande company inaugurated great preparations to-day to repair the damage done to bridges and roadbed between Florence and Pueblo. This forenoon the information was received that it will be impossible to raise the blockade without more new work than was at first contemplated.

## Heavy Storm.

**Special to The News.**  
SILVER CLIFF, Colo., June 1.—Custer county has received a generous rainfall during the past forty hours, and the rain is still coming. It is the best wetting-down the soil has known for two years, and there is a general rejoicing among the ranchmen. The telegraph wires to Canon were downed by the storm.

obliterated. Fields of corn and alfalfa  
and garden truck have been laid waste,  
together with the many changes which  
have taken place in the river channel,  
makes the ranchmen's condition a burden-  
some one.

The belated Rio Grande passenger train  
which sidetracked at Carlisle Springs on  
Wednesday afternoon, having procured  
from a long ranchman all the provisions  
they could spare, ran up to Beaver sta-  
tion Thursday morning, where they might  
obtain additional supplies, but the flood  
began to cut into the land and to escape  
being swamped in the river, it was backed  
again to Carlisle, and to-day the track  
below Beaver station is in the midst of  
a raging torrent. A short distance below  
the Beaver washout is another one and  
so it is reported all the way to Pueblo.

The Denver and Rio Grande Railroad  
company is not promising any trains be-  
fore Monday. It is working large forces  
at both ends of the line, but cannot get  
to a dozen places between the two forces.  
The railroad company to-day transferred  
all passengers from the belated train at  
Carlisle to this point and to Pueblo.

A party of Eastern physicians on their  
way to San Francisco to attend the na-  
tional convention were brought here by  
conveyances, and at 11 p. m. to-night the  
company will provide a train and send  
them West. The M. Ds. voted the D.  
& R. G. a vote of thanks at the Junction  
house this afternoon.

**CENTRAL CUT OFF.**

**Roads Washed Out—Great Damage  
Everywhere.**

Special to The News  
CENTRAL CITY, Colo., June 1.—A rain-  
fall set in Tuesday and kept up for forty-  
eight hours, ending last night. The prin-  
cipal mines of the county with but few  
exceptions are under water and many  
miners have been laid off owing to that  
fact. Communication by rail has been  
cut off since Wednesday morning. The  
high water of yesterday did a large  
amount of damage to the track of the  
Colorado Central railroad between this  
city and Black Hawk, and on down to  
Forks of the Creek. No mail has  
been received here from the East since  
Wednesday. The roads leading to the  
valley are badly washed out, and it is  
with great difficulty that Golden is  
reached by conveyances. But few of the  
mills in Black Hawk are running, sev-  
eral of them being damaged by the high  
water in North Clear creek. The road  
leading down Virginia canon to Idaho  
Springs is washed out. In short, the  
steady rain Wednesday and Thursday  
has been the cause of much damage  
throughout the country. No trains are  
expected to arrive here before Sunday or  
Monday. Present indications are that an-  
other rainfall will set in. Should this oc-  
cur there is no telling what amount of  
damage will be entailed west of the city.  
Snow fell to the depth of twelve inches  
yesterday.

**SEVEN FEET OF SNOW.**

**Pike's Peak Covered with the Fleecy  
—The Booming Manitou Streams.**

Special to The News  
MANITOU, Colo., June 1.—In the af-  
ternoon of Tuesday it began snowing on  
top of Pike's peak and continued un-  
interruptedly for forty-eight hours. The  
records of the government signal service  
officers show seven feet of snow. They  
say it is the worst storm that has been  
recorded since the government signal  
service was re-established on the peak  
over two years ago. The heavens clear-  
ed to-night for the first time since Tues-  
day and the peak looks beautiful with its  
mantle of snow. The flood down Wil-  
liams canon dwindled down to a small  
stream this afternoon, but the Ruxton

United States minister at Seoul, Korea,  
stating that a serious outbreak has oc-  
curred in that country. No particulars  
are obtainable. It is understood the  
United States steamer Baltimore, now at  
Naski, Japan, will be ordered to the  
scene. The Korean legation received a  
cable to-day from the king's palace at  
Seoul stating the rebels had gained pos-  
session of Chumho, the southern and  
chief of the eight provinces of the king-  
dom, that the lives of all foreigners are  
in danger, and that the presence of a  
United States warship without delay to  
protect Americans was urgently request-  
ed. The officials of the legation imme-  
diately presented the facts to Secretary  
Gresham and in a friendly manner im-  
pressed him with the importance of  
prompt action. They explained that  
there were between 300 and 400 Ameri-  
cans in the southern provinces of Korea,  
and that the revolution was directed  
against them.

Secretary Gresham laid the matter be-  
fore the president this afternoon, but up  
to a late hour no action had been taken,  
the president deeming it advisable to  
await a report from Minister Sill on the  
subject. Under Secretary McAdoo was  
called into consultation and reported that  
there were no ships available, the Balti-  
more could reach Chemulpo within forty-  
eight hours after orders were issued to  
her. It is understood that the order to  
proceed to that port has been prepared  
and will be cabled soon as the president  
authorizes it.

**Bessie Kendrick's Dead.**

PITTSBURG, Pa., June 1.—Bessie Ken-  
dricks, 34 years old, a member of the  
"Crystal Slipper" opera company, died  
suddenly here to-day. It is believed she  
was the wife of Frank J. Rathell of Chi-  
cago. The coroner's jury brought in a  
verdict that the woman's death was the  
result of a criminal operation performed  
by herself. Just before death she ad-  
mitted what she had done.

**For Hewston's Relief.**

SAN FRANCISCO, June 1.—General W.  
H. Dimond and A. D. Grimwood of this  
city, who asked Secretary Gresham to in-  
tercede in behalf of General Hewston,  
the Californian under arrest in London,  
to-day received messages from the secre-  
tary stating that Ambassador Payard has  
done and will do all he can in Hewston's  
behalf.

...No clue whatever  
...f the man who as-

...mills in Black Hawk are running, sev-  
...eral of them being damaged by the high  
...water in North Clear creek. The road  
...leading down Virginia canon to Idaho  
...Springs is washed out. In short, the  
...steady rain Wednesday and Thursday  
...has been the cause of much damage  
...throughout the country. No trains are  
...expected to arrive here before Sunday or  
...Monday. Present indications are that an-  
...other rainfall will set in. Should this oc-  
...cur there is no telling what amount of  
...damage will be entailed west of the city.  
...Snow fell to the depth of twelve inches  
...yesterday.

### SEVEN FEET OF SNOW.

#### Pike's Peak Covered with the Fleecy —The Booming Manitou Streams.

Special to The News.  
MANITOU, Colo., June 1.—In the af-  
...ternoon of Tuesday it began snowing on  
...top of Pike's peak and continued unin-  
...terruptedly for forty-eight hours. The  
...records of the government signal service  
...officers show seven feet of snow. They  
...say it is the worst storm that has been  
...recorded since the government signal  
...service was re-established on the peak,  
...over two years ago. The heavens clear-  
...ed to-night for the first time since Tues-  
...day and the peak looks beautiful with its  
...mantle of snow. The flood down Wil-  
...liams canon dwindled down to a small  
...stream this afternoon, but the Ruxton  
...and Fountain, fed by the rain and snow  
...of the mountains, are still high. People  
...are moving out of houses along the  
...Fountain in Ute pass. Last night the  
...channel of the Fountain changed back  
...of the Mansions and rushed full upon the  
...Grace Greenwood cottage, knocking out  
...its foundations and spilling it over all  
...away into the stream. J. H. Niles, the  
...occupant, was rescued by Alderman Atto  
...on horseback.

### WATERLESS LOVELAND.

#### Destruction of Home Supply Ditch Dam and Consequent Losses.

Special to The News.  
LOVELAND, Colo., June 1.—The rain  
...of yesterday, which washed out the  
...Home Supply dam, was the most severe  
...ever experienced in this section. The  
...dam was built in 1880, and was one of  
...the best constructed in the state. Its  
...destruction will deprive fully half of  
...the farming land between the Big and Little  
...Thompsons of the water necessary to  
...raise this year's crops and lay waste for  
...that time a portion of the finest wheat  
...land of the West. An attempt will be  
...made to secure some water from the  
...Handy ditch, which lies above the Home  
...Supply.

As Loveland's water works are sup-  
...plied by a pipe line from this dam, the  
...town must depend on the ditches until  
...another connection can be made from the  
...pipe to the river.

The rain was very heavy, but resulted  
...in little other damage. At 12 to-night  
...rain is again falling.

### WATER GOING DOWN.

#### Only Two Were Browned at Pueblo as a Result of the Flood.

Special to The News.  
PUEBLO, Colo., June 1.—So far as can  
...be definitely learned the loss of life by  
...the flood of Wednesday night is not more  
...than two, the reported finding of an-  
...other body east of the city having been  
...found this morning to be untrue.  
...Fully two carloads of clothing were  
...left at the city hall to-day and the gar-  
...ments were distributed to some 300 peo-  
...ple. Citizens and the municipal author-

...done and will do all he can in Hewston's  
...behalf.

### Garden Hose, Hose Menders, Etc. Best quality only at Hughes & Keith's.

### TELEGRAPHIC BRIEFS.

A fire in Omaha caused a loss of \$28,000 yes-  
...terday.  
Frost near Middleboro, Ky., did immense  
...damage.  
Prof. W. D. Whitney of Yale is, at the point  
...of death.

Cholera prevails in the provinces of Ploek  
...and Radom, Russia.

The Germania and Tauris have arrived in  
...Liverpool from New York.

Dr. Meyer, who poisoned Ludwig Brandt in  
...New York, will not be sentenced till August.

In the New Thames Yacht club race yesterday  
...the Prince of Wales' cutter Britannia beat the  
...Iverna.

Advises from Samoa announce an important  
...battle between the rebels and the government  
...imminent.

Harry Weed, winner of the Van Ness stakes  
...at Morris Park, was sold by Mudden & Straus  
...to M. F. Dwyer for \$12,000.

The resignation of Verste was accepted by  
...Emperor Francis Joseph, and Count Hedernary  
...commissioned to form a new cabinet.

It is stated that the Indian bureau that no re-  
...quest for state troops was received from Gov-  
...ernor Jones of the Choctaw nation.

Burglars shot and wounded banker John M.  
...Russell and wife at Palmyra, Mo. Police are  
...trailing the robbers with bloodhounds.

The official canvass of the votes on in-  
...creasing the salary of the attorney general of  
...Michigan shows that the measure was defeated.

The charter of the Hoffman House corpora-  
...tion of New York has been annulled and the  
...receiver ordered to wind up the affairs of the  
...hotel.

Count Herbert Bismarck did not arrive in  
...the Normandie as stated yesterday. He em-  
...barked in that ship, but left it at Southamp-  
...ton, England.

A bloody battle has occurred in Bulgaria.  
...Two battalions of infantry and the entire po-  
...lice force have declared in favor of ex-Prem-  
...ier Stambouloff.

The indictment against James E. Malone, the  
...first register of the Perry land office, was  
...quashed yesterday by Judge Blerer of the  
...Oklahoma supreme court.

The big strike of the National Tube com-  
...pany's employes may be settled to-day by ar-  
...bitration. The firm has consented to this  
...means and a conference has been arranged.

George H. Donnell of Mississippi was yester-  
...day appointed chief clerk of the census bureau  
...at \$2,500 per annum. James H. Wardell of  
...New York, whom Mr. Donnell succeeds, has  
...been transferred to the pension office.

The Toledo, Charleston and St. Louis Rail-  
...road company filed articles of incorporation with  
...the Illinois secretary of state yesterday. The  
...capital stock is \$4,472,500, and the road runs  
...from Eugene, Ind., to East St. Louis, Ill.

Special Agent James C. Maxwell of the  
...Grand Trunk railway is under arrest at Chi-  
...cago, charged with being implicated in the  
...fatal shooting on an incoming train last night  
...of George C. Newcomb, assistant special agent  
...of the Western Indiana railway.

The visiting delegates to the triennial con-  
...gress of American physicians and surgeons  
...held their annual business meeting yesterday  
...at Washington. General session under the di-  
...rection of the American Laryngological associa-  
...tion was commenced after the business of the  
...congress had been disposed of.

Articles of consolidation were filed in Illinois  
...by the Bluffton, Kokomo and Southwestern,  
...Toledo, Dupont and Western and the Toledo,  
...Charleston and St. Louis Railroad companies,  
...to be known as the Toledo, St. Louis and  
...Kansas City railroad, with principal offices at  
...Toledo. The capital stock is \$18,000,000.

The club members handicap to be run at the  
...fair grounds at St. Louis to-day will be the  
...most sensational race run there. Yo Tambien,  
...Ira Pickwick, Ray S. Boundmore, Service,  
...Parady, Miss Pickwick, Prince Carl, Wild-  
...wood, Logan, Guldo, Kidder, Linda, Dolly  
...McCone and Alcornmare are nearly all sure  
...starters.
